I'll take a few moments for anybody that would like to chime in on any house cleaning, like announcements, upcoming outreach or anything that we wanna like announce here and now while

we have our largest tendance U M1 I have on my mind while you think of one or two that you might have is that Dave Shaw with the research committee reached out to me and others on the steering committee and voiced interest and doing a workshop in November where those that are involved with research plots or any other surveying or monitoring data collection type efforts could come together and share amongst themselves what they're doing so that they don't crossover too much and that we are kind of symbiotic.

HOLTHOUSE Cody \* ODA 12 minutes 48 seconds

And what we're doing together and also do you have a chance to network for future projects and have those from the Community or other local groups be able to plug into that as well to see what kind of work is being done or is planned on being done?

HOLTHOUSE Cody \* ODA 13 minutes 3 seconds

So I think that is left in my court to help find a date.

HOLTHOUSE Cody \* ODA 13 minutes 7 seconds

I think Dave is off to New Zealand for a trip, so I need to work with that group on finding a date in November that will work.

HOLTHOUSE Cody \* ODA 13 minutes 26 seconds

And if any other committees here would like to be a part of that poll so that you can be a part of that date selection, let me know, but I'll probably keep it to those leaders for now.

HOLTHOUSE Cody \* ODA 13 minutes 48 seconds

Let's do that.

HOLTHOUSE Cody \* ODA 13 minutes 49 seconds

I don't wanna diverge too much.

HOLTHOUSE Cody \* ODA 13 minutes 51 seconds

Umm, beyond that one big funding update that I can kind of go into more detail in the survey and monitoring update is that ODF is gonna be stepping in courtesy of Adam Kobel's generous offer to help some of our slam efforts this winter.

HOLTHOUSE Cody \* ODA 14 minutes 11 seconds

And so I'll give more details on that.

HOLTHOUSE Cody \* ODA 14 minutes 13 seconds

But I did want to give a shout out to ODF for all they do and and that upcoming funding offering as well.

HOLTHOUSE Cody \* ODA 14 minutes 39 seconds

And I just wanna give a shout out to to Leela.

HOLTHOUSE Cody \* ODA 15 minutes 34 seconds

So our team, when I say our team, Matt Mills and several other folks in our camp have been doing a lot of visual survey still more or less one day a week now it's been a little less because we have so many other surveys going on.

HOLTHOUSE Cody \* ODA 15 minutes 48 seconds

But we have continued to do them all summer.

HOLTHOUSE Cody \* ODA 15 minutes 51 seconds

One big update is that we have a new infestation area to the north side of Forest Grove.

HOLTHOUSE Cody \* ODA 15 minutes 57 seconds

It's still within Forest Grove, so we're not pushing in any new cities yet, but we have substantially increased our infestation area from 2.7 square miles to 5.7, and that update was made here in the last week or so.

HOLTHOUSE Cody \* ODA 16 minutes 27 seconds

HOLTHOUSE Cody \* ODA 16 minutes 40 seconds

But you'll notice on the dashboard this Polygon of infestation area has increased.

HOLTHOUSE Cody \* ODA 16 minutes 45 seconds

So note that uh, we just wanna send out another reminder that we're no longer reporting, you know, one off trees that are infested within this infestation area.

HOLTHOUSE Cody \* ODA 16 minutes 56 seconds

We're trying to focus on the perimeter so that we can pick up on novel locations that are on the perimeter or in other areas.

HOLTHOUSE Cody \* ODA 17 minutes 4 seconds

That's where our time is better suited.

HOLTHOUSE Cody \* ODA 17 minutes 6 seconds

At this point, we do mark trees though within the area.

HOLTHOUSE Cody \* ODA 17 minutes 10 seconds

If it's a you know an easy graph, that's fine.

HOLTHOUSE Cody \* ODA 17 minutes 14 seconds

Umm, what else?

HOLTHOUSE Cody \* ODA 17 minutes 16 seconds

Here we've been pushing into Cornelius area, which is east, a large push S towards Gaston as well.

HOLTHOUSE Cody \* ODA 18 minutes 44 seconds

And so just last week, we met on how we will deal with actually managing the failing and dispersing of these debris that will get.

HOLTHOUSE Cody \* ODA 18 minutes 55 seconds

So if you remember, we created 127 trap trees that are girdled around Forest Grove, and now it's time to come and collect those and get data out of them.

HOLTHOUSE Cody \* ODA 19 minutes 5 seconds

That's what this winter has in store for a lot of us here.

HOLTHOUSE Cody \* ODA 19 minutes 9 seconds

HOLTHOUSE Cody \* ODA 19 minutes 14 seconds

HOLTHOUSE Cody \* ODA 24 minutes 25 seconds

Umm, well yeah, I'll put this in the chat here.

HOLTHOUSE Cody \* ODA 24 minutes 31 seconds

It's a nice image that Hazel brought up that I conveniently stole at our last meeting this morning.

HOLTHOUSE Cody \* ODA 24 minutes 37 seconds

And you can see where those sites are, where Hazel and her team have done plots and how many trees are noted.

HOLTHOUSE Cody \* ODA 24 minutes 43 seconds

Each of those locations?

HOLTHOUSE Cody \* ODA 24 minutes 45 seconds

No, EAB observed in any of these locations so far.

HOLTHOUSE Cody \* ODA 24 minutes 49 seconds

For more details, reach out to Hazel or the Research Committee on that why it also mentioned that OISC has as of now 10 positives reported on the hotline.

HOLTHOUSE Cody \* ODA 25 minutes 1 second

UM, these EAB positives are all within our known infested area.

HOLTHOUSE Cody \* ODA 25 minutes 7 seconds

Interestingly enough, a lot of these reports were of trees that had pretty healthy canopies, but a whole lot of exit holes.

HOLTHOUSE Cody \* ODA 25 minutes 14 seconds

And so if you're looking for that canopy dieback, it might not always be there to match with the number of Beetles that you actually have in the tree and thought that was interesting.

HOLTHOUSE Cody \* ODA 25 minutes 26 seconds

I'll move on to Metro and they're update.

HOLTHOUSE Cody \* ODA 25 minutes 28 seconds

Like I said, they're working with Matt Melodyne and IRM on the felling of trees and all of that debris removal and working in tangent with us and others.

HOLTHOUSE Cody \* ODA 25 minutes 39 seconds

UM, they're looking into a location just South of Forest Grove.

HOLTHOUSE Cody \* ODA 25 minutes 44 seconds

That will be a place where we can possibly process infested material within a closed barn space to deal with some of the rain and wet weather, and also looking into some energy efficient tools that we can use for that project as well.

HOLTHOUSE Cody \* ODA 26 minutes

Clean water services helping with all that above, and they also have been working with us on how we're gonna effectively clean up these properties, make sure we leave our cooperators properties in good shape after we fell these trees and I'm working on uh with arborist on an assessment of trees and Eastern Washington County.

HOLTHOUSE Cody \* ODA 26 minutes 47 seconds

They did mention that they had bat by catch and some of their funnel traps.

HOLTHOUSE Cody \* ODA 26 minutes 52 seconds

I think one and uh Hazel also mentioned getting a bat showing up in their funnel trap and we advised trying a large format mesh that might block out birds and bats but not insects.

HOLTHOUSE Cody \* ODA 27 minutes 5 seconds

WILLIAMS Wyatt \* ODF 43 minutes 3 seconds

I'm not sure we're ready yet for the next month to discuss it at the bulletin level.

WILLIAMS Wyatt \* ODF 43 minutes 9 seconds

Maybe after that, because the agencies that are gonna be working on Mediterranean oak borer, we're putting together sort of a emergency planning day.

WILLIAMS Wyatt \* ODF 43 minutes 19 seconds

It's gonna be in October.

WILLIAMS Wyatt \* ODF 43 minutes 21 seconds

That's where we can discuss what our strategy is gonna be for survey monitoring treatments.

HOLTHOUSE Cody \* ODA 55 minutes 39 seconds

Ohh yeah, why it's sharing?

HOLTHOUSE Cody \* ODA 55 minutes 41 seconds

Maybe our ash to ash.

HOLTHOUSE Cody \* ODA 55 minutes 44 seconds

Ohh, there's another dashboard for trapping as well you know.

HOLTHOUSE Cody \* ODA 55 minutes 50 seconds

I think that's all I've got to say.

HOLTHOUSE Cody \* ODA 55 minutes 51 seconds

Wyatt or Karen or anybody else, if you have anything else to say, feel free.

HOLTHOUSE Cody \* ODA 55 minutes 55 seconds

But I think that's that's what I've got for today.

HOLTHOUSE Cody \* ODA 56 minutes 4 seconds

Awesome.

HOLTHOUSE Cody \* ODA 56 minutes 4 seconds

Alright, I'll let everybody go.

HOLTHOUSE Cody \* ODA 56 minutes 6 seconds

Thanks again for meeting and reach out.

HOLTHOUSE Cody \* ODA 56 minutes 9 seconds

If you have any questions, appreciate it.
